Inserting the inner components

1 Untie the handstrap and slide down the battery locks to unlock the battery cover.

2 Use the notch and lift the battery cover. Remove the cover completely.

3 Lift the battery out of the compartment with your fingernail, if necessary.

Micro SD and SIM cards

4 Slide the fasteners and lift them up for opening.

5 Insert micro SIM cards and a micro SD card into each slot.

Micro SD card slot
Micro SIM card slots

10 Slide up the battery locks to lock the battery cover.

9 Insert the top of the cover first and then press around the edges of the cover until it clicks into place.

Battery

8 Insert the battery. Make sure the gold contacts are aligned.

SAM card

7 Slide the SAM card into the slot.

6 Lift down the fasteners and slide them for locking.

If you want to remove the inner components, follow this steps in reverse.

It will click when it is properly inserted.

Charging the Battery

1 Open the cover of multi-purpose jack.

2 Plug the micro 5-pin end of the charger into the device's multi-purpose jack.

- The charging LED turns red when the battery is charging.
- The charging LED turns green when the battery is fully charged.

3 Connect the micro USB cable with power adapter and then plug the charger into a power outlet.

You can also charge the device with the optional cradle.

Turning the Device On or Off

Turning the Device On

Press and hold the Power button for a few seconds.

Turning the Device Off

1 Press and hold the Power button for a few seconds.

2 For Windows device, drag the screen downward.
For Android device, tap **Power off**.

- To turn the screen on or off, press the Power button.
- Registering the accounts without turning on the Wi-Fi may incur extra charges depending on your data plan.

Do not turn off the device by removing the battery, as this may damage the device.

Using the Touchscreen

Use finger gestures to use the touchscreen effectively.
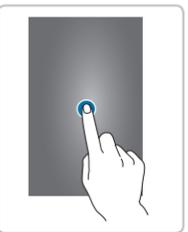

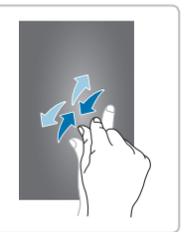

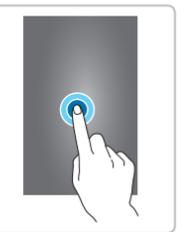

Tap   Zoom in or out   Tap and hold
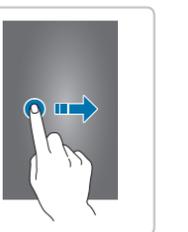

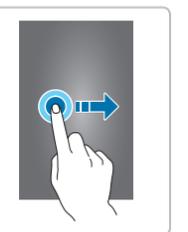

Swipe   Drag

Screen Overview

Depending on the operating system of your purchased EF500R device, the initial screen is different. This screen is the starting point for all apps and features.

Windows Start Screen

Android Home Screen

More Information

Warranty Information

Bluebird Inc. (hereinafter referred to as Bluebird) provides the warranty service for its products in compliance with the Bluebird's warranty program.

Upon receiving a notification on a defect of its product within the range of warranty during the warranty period, Bluebird will repair or replace the defective product according to its warranty policy.

If the defective product within the range of warranty is not repairable or replaceable, Bluebird shall refund the purchasing price within a designated period from the date of receiving a notice of defect.

Bluebird assumes no responsibility for repairing, replacement or refund until it receives the defective product from the customer. The repaired product shall be equivalent to a new product in the aspect of performance.

This warranty is applied to software products only when the programming commands are not executed. Bluebird does not guarantee interruption-free or error-free performance.

For more warranty information, see the User Manual.
